Results-driven IT professional with hands-on experience in web development and technical troubleshooting. Earned a coding certificate from UCF, gaining proficiency in HTML, CSS, JavaScript, Node.js, and responsive web design. Developed strong analytical thinking and customer service skills by diagnosing technical issues and implementing effective solutions. Adept at explaining complex technical information clearly to a broad audience. Seeking a role as part of an energetic technology team where I can apply my technical expertise. Enthusiastic to take on challenges in web development, IT/Tech support and related.
